

Clubs and Activities Information – Autumn Term 2017

Transition & Reception Gymnastics Club

Pupils develop their core strengths and learn how to better control their body through a carefully devised programme.

Reception & Year 1 Puzzle Club

Pupils are challenged to complete a variety of puzzles, including jigsaw puzzles, designed to aid their cognitive development. Pupils work with their peers, which also develops their communication and teamwork skills.

Years 1 & 2 Football Club

Pupils work on the key footballing techniques through activities designed to continually build upon their skills. Pupils then practise their skills in small-sided games.

Years 1 & 2 Art Club

Pupils create a wide variety of artwork, based upon a given theme or artist and drawing upon an interesting range of media. They are able to create projects and pieces over a longer time, enabling them to produce more complex and intricate designs.

Years 1 – 3 Yoga Club

Pupils practise a variety of child-friendly yoga positions, including breathing exercises.

Years 2 – 4 Tag Rugby

Pupils learn the basics of rugby in a safe way through tag rugby. They take part in a variety of activities to hone their skills before using them in team games.

Years 3 – 6 Netball Club

Pupils develop their netball skills using fun drills and then progress to playing games of netball.

Years 3 – 6 Cricket Club

Pupils develop their batting, bowling and fielding skills using a wide variety of drills. They also play in small-sided games to put their skills into action.

Years 3 – 6 Football Club

Pupils work on key footballing techniques through activities designed to continually build upon their skills. They then practise their skills in small-sided games.

Years 4 – 6 Games Club

Pupils play a variety of board games, including chess. Through the club, pupils develop sportsmanship, strategy, collaborative learning and enhance their cognitive development.

Year 5 Coding Club

Using a variety of programs, pupils learn the basics of coding. They create animations, games and other simple programs of their own.

Years 5 & 6 Mad Science

Science is brought to life for the pupils in a fun-packed, exciting way, using quizzes and investigations. They find out how to experiment to clearly prove scientific concepts.
